Complete solutions from a single source

In cokemaking technology, Paul Wurth offers tailor-made and state-of-the-art solutions for your turnkey construction projects, modernisations as well as hot and cold repairs. Our plants and equipment meet the highest standards in terms of coke productivity, emission control, user friendliness and plant safety.

The recent integration of Schalke's coke oven machine technology makes Paul Wurth a global player for cokemaking projects with a comprehensive portfolio including:

- Complete cokemaking plants
- Coke oven batteries
- Coke oven gas treatment systems
- Coke quenching systems
- Single oven pressure control system (SOPRECO®)
- Automated supervision and control systems for the entire coking process

as well as
- Coke oven machinery
